It has been 11 years since I stepped out of Jaipuria Institute of Management, Ghaziabad. The two years spent in JIM not only helped me broaden my horizon on my knowledge of administration and management but also helped me discover more about myself. It is a place of knowledge and bliss. Nostalgia always gripped the air whenever I got a chance to meetup my batch mates from 2005-07 batch. Preparing for case studies, presenting group projects, visits to industrial units, midnight Maggi breaks during end semester exams, planning for group outing with friend from the day of freshers till farewell are some of the incredible experiences we had.

Jaipuria provides a perfect platform to crack the best job and endow its students with the perfect skill set and knowledge level. MBA on papers stands as Master of Business Administration, but when it comes to practical life it means how you Manage(M), and Built(B) yourself to Achieve(A) your dreams, and this is where Jaipuria has set different standards as compared to other institutes.

Jaipuria has never aimed at keeping knowledge limited to contents of a book, it rather aims at investigating, exploring, analyzing and developing a perfect composition ready to enter corporate world. My success graph is on rise only due to strong base laid by members of Jaipuria family.
