

5 Days FDP on Quantitative Research Techniques: PLS-SEM & ANN

21-25 June, 2024
9AM – 5PM

SCAN TO REGISTER

BACKGROUND

Quantitative analysis is essential for researchers as it provides a systematic and rigorous approach to studying phenomena, generating empirical evidence, and advancing knowledge across various disciplines. By employing quantitative methods, researchers can make meaningful contributions to their fields, address pressing societal issues, and drive innovation and progress. Quantitative analysis allows researchers to measure phenomena objectively using numerical data. This reduces bias and subjectivity in the research process, leading to more reliable and valid results. Also, quantitative analysis enables researchers to draw statistically valid inferences about populations based on sample data. By employing statistical techniques such as hypothesis testing and confidence intervals, researchers can make generalizations and conclusions with a known level of confidence. The aim of this Faculty Development Program (FDP) is to equip participants with advanced skills and knowledge in data analysis and modeling techniques, specifically focusing on Partial Least Squares Structural Equation Modeling (PLS-SEM), Artificial Neural Networks (ANN), Fuzzy-set Qualitative Comparative Analysis (FsQCA), and Sentiment Analysis. This will empower the participants with the confidence to leverage advanced data analysis and modeling techniques in their academic and professional pursuits, ultimately contributing to advancements in their respective fields.

OBJECTIVES

- To explore the intricacies of PLS-SEM, a powerful statistical method used for analyzing complex relationships between the variables. Learn how to apply PLS-SEM to various research domains and gain hands-on experience in model estimation and interpretation.
- To delve into the world of artificial intelligence and machine learning via Artificial Neural Networks (ANN). Discover how neural networks mimic the human brain's ability to learn and adapt, and master techniques for training and optimizing ANN models for pattern recognition tasks.
- To uncover causal relationships using Fuzzy-set Qualitative Comparative Analysis (FsQCA). Learn how to identify configurations of conditions that lead to specific outcomes and leverage fuzzy-set logic to analyze complex social phenomena.
- To harness the power of Natural Language Processing (NLP) and machine learning to extract valuable insights from textual data. Explore sentiment analysis techniques for gauging public opinion, customer feedback, and social media sentiment, and learn how to apply sentiment analysis to real-world datasets.

FOR WHOM

- Faculty members
- Researchers
- Industry professionals
- Anyone interested in enhancing their skills in data analysis and modeling

WHY TO ATTEND

- Engaging lectures by experts and experienced practitioners
- Hands-on workshops and practical exercises to reinforce learning
- Real-world case studies and applications across various domains
- Interactive discussions and networking opportunities with peers and professionals
- Comprehensive course materials and resources for continued learning

PEDAGOGY

The FDP offers a mix of engaging lectures, hands-on workshops, real-world case studies, and interactive discussions. By incorporating these pedagogical strategies, you can create a dynamic and engaging learning experience that equips participants with the knowledge, skills, and confidence to apply PLS-SEM, ANN, FsQCA, and Sentiment Analysis in their research and teaching endeavours.

PROGRAMME CONTENTS

DAY 1: 21 JUNE 2024

Introduction to Measurement, Dimensionality and Item Analysis: Introduction to theoretical modelling, Discussion of lower and higher order constructs, Introduction to reflective and formative scales, Dimension identification through deductive and inductive inquiry, Face validation, Content validation, Calculation and assessment of I-CVI, S-CVI (S-CVI/UA, S-CVI/Ave), Modified Kappa (K^*), Pilot testing through exploratory factor analysis, Hands on experience using SPSS.

DAY 2: 22 JUNE 2024

Introduction to Structural Equation Modelling: Difference between CB-SEM and VB-SEM, Installation of SmartPLS Software, Handling reflective constructs, Handling formative model assessments, Hands on practice session.

DAY 3: 23 JUNE 2024

Handling Higher Order Constructs: Reflective-Reflective and Reflective-Formative constructs, Practical orientation of Higher order constructs with repeated indicator approach and two stage approach, Importance of Control Variables and Marker Variables, Dummy coding of categorical data for applying control variables in SEM

DAY 4: 24 JUNE 2024

Handling Mediation: Various types of mediation, Applying MICOM analysis, MGA as Moderation in PLS-SEM, Necessary Condition Analysis as next frontier in SEM.

DAY 5: 25 JUNE 2024

Artificial Neural Network, FsQCA, and Sentiment Analysis: Understanding neuron functioning, Artificial framework of estimation, Network of hidden layers, Type of variables in ANN, Performing ANN in SPSS and Orange, Estimating prediction accuracy using RMSE and Confusion Matrix, Fuzzy Comprehensive - Quantifying Assessment (FCQA), Sentiment Analysis with text data.

PROGRAMME FEE

FDP Registration Fees: Rs 2000 per participant.

ORGANIZING TEAM

PATRONS

Shishir Jaipuria

Chairman

Jaipuria Group of Educational Institutions

Prof (Dr.) Daviender Narang

Director

Jaipuria Institute of Management
Indirapuram, Ghaziabad (U.P.)

Prof. (Dr.) Rashmi Bhatia
Dean (Academics)

Prof. (Dr.) Anubha
Professor

Prof. (Dr.) Ajay Tripathi
Professor

Dr. Divya Pant
Assistant Professor

Dr. Himanshu Sharma
Assistant Professor

ABOUT THE INSTITUTE

Jaipuria Institute of Management was set up by Seth Anandram Jaipuria Educational Society in 2001. It has a sprawling campus spread over 5 acres at Indirapuram, Ghaziabad, a posh area on NH-24 within NCR. During this short span of 24 years, under the able guidance of the Late Dr. Rajaram Jaipuria and Shri Shishir Jaipuria JIM has been acclaimed as a leading business school in Northern India. Jaipuria Institute of Management, Ghaziabad, was established by fulfilling all the norms regarding academic, financial and social aspects set by concerned statutory bodies.

The Institute started a full-time 2 years Master Degree Program in Business Administration (MBA with Dual Specialisation) in the year 2001, MBA (Business Analytics) Program in the year 2020, and MBA in BFS, in the year 2022. All these programs are duly approved by AICTE, and affiliated to Dr. APJ Abdul Kalam Technical University, Lucknow (UP). Moreover, Seth Anandram Jaipuria Trust and Seth Anandram Jaipuria Education Society manage various reputed schools and colleges in the country. Jaipuria Institute of Management, Indirapuram, Ghaziabad, aims to provide quality management education to transform individuals into Business Leaders, Skilled Managers & Entrepreneurs. Jaipuria Institute of Management intends to provide and develop the capabilities of the young managers by raising their level of competence and intellect to face various challenges in the global environment. In pursuit of excellence, the institute provides training and development services, fosters research and disseminates knowledge through publication of books, journals and magazines for the development of society at large.
